

Hydraulic Leg Loading Dock Table with 15000kg Carrying Capacity and 2700x2200mm Size

Our Product Introduction

for more products please visit us on styluspenforipad.com

Basic Information

- Certification: GS, CE, ISO 9001

Product Specification

- Model NO.: M6.5-150121-D2K
- Lifting Height: 1210mm
- Lifting Time: 100s
- Transport Package: Wooden Pallet And Steel Pallet, Wooden Case
- Specification: 2700x2200mm
- Trademark: Marco
- Origin: China
- HS Code: 84289090
- Supply Ability: 1000
- Warranty: 12 Months
- Lift Mechanism: Scissor Lift
- Carrying Capacity: 15000kg
- Moves: Stationary
- Driven Type: Hydraulic

Product Description

Product Description

Loading dock lift table is specially designed to withstand the point loads, when the vehicles cross the lift table. It is mainly used on loading / unloading areas, such as warehouse, loading bay. It can used for outdoor.

Different from other type of lift table, Loading dock table has standard factors as below:

Tear platform, oil filled minus side on cylinder, reinforced top frame, service hatch on top for power pack maintenance, Landing pin on base frame, two paint process with thickness 120um.

Product Parameters

Model No.	M6.5-150121-D2K	Capacity	15000kg
Platform size	2700x2200mm	Base Frame	2700x2170mm
Min. Height	250mm	Lifting Height	1210mm
Model Type	stationary	Lift Time	100s
Color	Grey/green/ blue/others	Product name	refer to product
Specifications	Customizable	Application	material handling
Power Voltage	380V 50Hz	Control Voltage	24V DC
Delivery Time	1 month	Package	exported case
Trademark	Marco	HS Code	84289090
Orgin	Made In China	Production Capacity	100/month
Certificate	ISO9001, CE, ISO3834, Design standard EN1570-1-2011

Company Profile

We are the experts in safe and reliable vertical positioning, with over 80 years' experience in designing and manufacturing rugged, high-performance lift tables. As a company focusing on quality and technology, Marco solutions have been successfully applied to warehousing logistics, automotive manufacturing, air transportation, chemical, food, beverage and other industries.

Marco Lift (Ningbo) Co., Ltd as part of SIGI works closely Vertical Positioning Group (VPG) in Sweden to support our Customers in China and the rest of the Asia-Pacific region for Marco lift tables.

Our Design Center is located in Shanghai , China , whilst our Sales Office in Ningbo and Manufacturing is located in Wuxi.

With more than 12 years in China and Asia, our team of design engineers can offer CE conformity products as we design products collaboratively with our Swedish Engineers.

We pride ourselves as the leading brand in the region, recognized for robust designs, outstanding quality and durability and strong after-sales service support and our products are safe and simple to operate.
